- English (Fluent)
- Telugu (Mother Tongue)

## PROFILE

I am an entry-level professional eager to contribute my skills in DevOps while gaining valuable experience in the industry. I excel in problem-solving, leadership, and collaboration, and I am proficient in AWS services and CI/CD processes. With a strong educational background and hands-on project experience, I am ready to work with a dynamic team to achieve impactful results

<b>Sri Sarathi institute of engineering and technology</b>	2021-2024
Nuzvid	
B.Tech Electronics and Communication Engineering -7.5	
<b>Government polytechnic for women</b>	2018-2021
Warangal	
Diploma Electronics and Communication -9.4	
<b>Arunodaya Merit school</b>	2017-2018
V M Banjar	
SSC - 8.8	

## PROJECTS

### Intelligent ambulance and automatic traffic light control system

Team leader

Aims to expedite Ambulance response by dynamically adjusting traffic signals to ensure a clear path for ambulances, ultimately saving lives and improving emergency medical services.

### Jenkins pipeline for CICD

In Jenkins, a CI/CD pipeline is a series of automated steps that builds, tests, and deploys software, enabling faster and more reliable software delivery.

## INTERNSHIP

<b>AWS Internship</b>	JAN 2024 - JUN 2024
-----------------------	---------------------

In this internship I worked on AWS services and gained hands on practice on services like EC2, S3, VPC etc.
